Watery Horizon

A soaking tub offers more than water to soak in. The skyline view beyond is mesmerizing. Should the sun be too intense, however, shade screens lower to cool things off.

Bali Bedroom

Rattan on the walls, a ceiling fan, and a low-
vered door to the great outdoors contribute
to the cabana-like feeling of this "stay-cation"
getaway.

Modern Cuisine

A cubist approach to kitchen design adds texture and symmetry to this gleaming kitchen. Black and white further enhances the space, emphasizing the ceiling height and allowing the cool bar stools to really stand out.
