

Space Planning & Interior Architecture

Residential · Multi Family · Commercial · Retail · Hospitality

dpa provides space planning, interior are support based on our clients' needs and

dpa provides space planning, interior architecture services, and furniture layout support based on our clients' needs and requirements. **dpa**'s team of associates pride themselves on successfully creating environments that blend the requirements of each client with the site specific restrictions of each project.

"Innovation, coordination, and technical ability are essential in my industry. Couple the aforementioned with communication skills, comprehensive follow through, and impeccable design sense-you have Diane Paparo. Diane is the only designer that I recommend with certainty and confidence."

Kenneth Goren
President of Hardware Designs Inc
